- SQL Server

Project Experience

Project

Client name	: Reneta Ltd (Pharmaceuticals)
Role	: BI Developer
Environment	: POWER BI, SQL Server 2012, Excel

Description:

Renata Limited (formally Pfizer Laboratories (Bangladesh) Limited), also known as Renata, is one of the top 10 (in terms of revenue) pharmaceutical manufacturers in Bangladesh. Renata is engaged in the manufacture and marketing of human pharmaceutical and animal health products. The company also manufactures animal therapeutics and nutrition products. This project deals with transactions at the Branch level. All the branches generate loads of data on a time-to-time basis.

Roles and Responsibilities:

- Create visually compelling and actionable interactive worksheets and dashboards.
- Designed, developed, and implemented POWER BI Business Intelligence reports.
- Different chart objects like Bar Charts, Line charts, Maps, and Pivot tables.
- Used Aggregate Functions and Filters.
- Find ways to make graphs and tables visually exciting, and while at the same time maintaining the accuracy of the core information content that is being communicated.
- Preparing Dashboards using calculations in POWER BI.
- Writing SQL queries for data validation.
- Combining two tables by using joins.
- Have experience in creating Power BI Reports with various visualizations.
- Shared dashboards by creating App Workspaces.

Project

Client name : Fleet Complete, Canada
Role : BI Developer
Environment : POWER BI, SQL Server 2016, Excel

Description:

Fleet Complete is the fastest-growing global provider of connected commercial vehicle solutions to customers worldwide. Fleet Completer's suite of products harnesses the power of state-of-the-art Lot and smart analytics technologies that enable customers to monitor their fleet, mobile workers, and valuable assets in near real-time and capture important data.

Roles and Responsibilities:

- Translate business needs to technical specifications.
- Extracting the data from different sources like SQL servers and Excel sheets.
- Create visualizations and reports for requested projects.
- Develop and update technical documentation.
- Writing the DAX expressions in Power BI Report.
- Adding filters, page level filters, and report level filters in Power BI Reports.
- Using Power BI Gateways for manual refresh and automatic refresh
- The incumbent would work as part of the Analytics team to deliver Sales, Finance, Customer Experience, and HR Business Analytics Projects.

Project

Client name : FactSet System India Pvt
LtdRole : Analyst
